April 24, 2021 - Final Round Presentation

## **Important Notice**

Please note that all checkpoints must be submitted prior to midnight (11:59 pm CST) on the due date. All competing teams will have one free pass to miss a deadline. If a team fails to meet a checkpoint deadline for the second time, they will be removed from the competition. The free pass provision will apply only to the first three checkpoints. If a team fails to deliver checkpoint 4 in time, they will be automatically disqualified.

Please note that all competitors must be FLA members to qualify for participating in the competition. All competitors have until Feb 21, 2021, to sign up for an FLA membership. Failure to do so will result in removal from the competition.

Certificates are provided to all who place in the competition (1st, 2nd, 3rd, and 4th). We will also provide a certificate of completion to all who successfully complete Checkpoint 4.

Given the current circumstances with COVID-19 and guidelines from the Student Organization Center, all events and presentations will be held virtually (online), and the FLA team strongly recommends that competitors refrain from any form of in-person interaction. The timeline provided above is subject to change based on the discretion of the FLA competitions team. Please refer to the "*Securities Analysis Competition: Introduction & Checkpoints*" document for more information regarding the checkpoints and selecting companies. The FLA Competitions team will communicate with you via a GroupMe channel and your UTD email. If you have any questions, please reach out to [flacompetitions@gmail.com](mailto:flacompetitions@gmail.com).
